

Candidate Profile for Eartha Daliuag

Running for Chiu School of Business

Tell us about yourself

Hello everyone! I am Eartha, a Supply Chain Management student, an international student, and an active volunteer. I arrived in Canada in the fall of 2021 with a goal to be as involved in the Bow Valley College community as possible. Having this goal, I volunteer for Student Wellness Mentor, Learner Success Services, Office of Sustainability, ICan Crew, and SA BVC. I also seek growth therefore I actively attend various workshops and seminars hosted by BVC.

To unwind, I enjoy spending time with my friends and in nature. My current interests are in content creation and development and photography.

What do you know about the Students' Association of Bow Valley College?

SABVC is a body representing the interest of the Bow Valley College students. SABVC allows students to explore their interests and creates opportunities to socialize through clubs and volunteering engagements. SABVC also hosts fun events with games to make student life on campus more fun. Other services established by SABVC are the MyWellnessPlan, UPass, and the GAP program which support students financially, and Bright pass which promotes a healthy student lifestyle.

Above all, SABVC develops programs and activities to make student life more enjoyable, less stressful, and most importantly, most memorable.

Diversity is a strength of SABVC. In your own words, how would you contribute to promoting diversity to the membership of SABVC?

Prior to my arrival in Canada, I worked in Dubai, UAE, and Ghana, West Africa as a hotelier. My work allowed me to interact with individuals coming from different parts of the world which made me understand that the knowledge of cultural differences is essential to relationship building. Meanwhile, attending diversity, equality, and inclusion (EDI) workshops and events hosted by BVC opened my eyes to ways to promote the advocacy.

By sharing my international experience, and by using my voice and influence to create awareness of EDI advocacies, I can contribute to the promotion of diversity in the SABVC community.

What is your platform?

I am a firm believer that growth and improvement are achieved through innovative and collaborative engagements. Thus, I will work to create a culture of dialogue to encourage student engagement.

Furthermore, with the understanding of the concerns of international students, I intend to be a forerunner in developing international student support programs. As it is my passion, I plan to boost the college's advocacies and practices on inclusion, health and wellness, and sustainability to further enrich students' experiences.

Above all, if elected to the position of Councillor, it would be my priority to ensure that the interests of students from Chiu School of Business are represented in the council.
